

A Portable Document Format (PDF)  
generation library targeting both the  
server- and client-side.

## Swagger Petstore

This is a sample server Petstore server. You can find out more about Swagger at [<http://swagger.io>](<http://swagger.io>) or on [[irc.freenode.net](http://irc.freenode.net), #swagger](<http://swagger.io/irc/>). For this sample, you can use the api key `special-key` to test the authorization filters.
